

Proprietary Director of Iberdrola Renovables Internacional S.A.U.

Industrial Engineer from Carlos III University in Madrid and bachelor's in business administration from UOC (Barcelona).

Director of Renewables Onshore Asia Pacific. Iberdrola Group Renewables Business.
Executive Director of Iberdrola Australia Pty Ltd.
Member of the Renewables Executive Committee.

RELEVANT EXPERIENCE FOR PERFORMING HIS DUTIES AT IBERDROLA RENOVABLES INTERNACIONAL, S.A.U.:

In 2006 he joined Iberdrola where he has held different positions in the Renewables Business, from development, project delivery and operations.

After several years in Spain coordination different initiatives in several countries in Europe and America, in 2014 he moved to Brazil where he spent 5yrs to set and lead the new Operations organization to manage the growing renewables portfolio of Neoenergia.

In 2019 he relocated to Australia, to start Iberdrola business in this new market, where he moved from being the Country Head in the early days to the Executive General Manager Renewables in Iberdrola Australia, after Iberdrola took control over Infigen in 2020.

Since mid-2022, he is leading the onshore growth expansion in the wider Asia Pacific region, including Australia and other geographies in Asia.
